Introduction

This document provides a high-level summary of this release. It includes a summary of the new products in this release, updated products, any authorization code changes required, any major installation changes, and any transitioning issues you should be aware of before installing. Additionally, any last minute issues found in the final stages of testing are included.

New or Updated Features

The following new or updated features are available in this release.

- Several updates to the xtUML eXecute functionality and user interface. Most notably, xtUML eXecute now runs significantly faster for models that contain large numbers of functions or operations
- Model merge now supports resolving additions of signals and operations from multiple branches.
- Improved document generation
- Enhancements and bug fixes to xtUML Translate
- User Interface enhancements
 - o Interface “assembly connector” feature
 - o “Set Model Compiler” utility
 - o Simplified Model Explorer tree

For a detailed list of features and fixes, refer to your product specific release notes and data manuals, available in the installed software tree or in the `release_documents` directory at the top level of the CD.

Authorization Codes

BridgePoint 4.0.0 represented a major change in the licensing of the tool. The xtUML Editor is now unrestricted. The xtUML eXecute Application (formerly Model Verifier) and xtUML Translate (Model Compiler) tools remain licensed Mentor Graphics products. Customers who wish to use this and later versions of BridgePoint must contact either their sales representative or customer support in order to transition their BridgePoint licenses to the new part numbers.

BridgePoint requires the version 11.11 of the FlexNET licensing software. Users of floating license servers are required to upgrade to this version or later. The latest version of FlexNet is available [here on Mentor Graphics SupportNet](#).

Installation Information

This release uses the BridgePoint installation program. For additional information on

installation, please refer to *BridgePoint 4.1.6 Installation Instructions* (*BridgePoint_4.1.6_Install.pdf*). You can view this manual in the `release_documents` directory at the top level of the first CD in each platform set.
